## ***DEFINITION OF AN INCIDENT***

The FBI through its Uniform Crime Reporting (UCR) National Incident-Based Reported System (NIBRS) has defined an incident as follows:

An **incident** is defined as one or more offenses committed by the same offender, or group of offenders acting in concert, at the same time and place.

The concept of **acting in concert** provides: that the offenders actually commit or assist in the commission of crime(s). The offenders must be aware of, and consent to, the commission of the crime(s); or even if nonconsenting, their actions assist in the commission of the offense(s).

The concept of **same time and place** provides: If more than one crime was committed by the same person or group of persons and the time and place intervals separating them were insignificant, all of the crimes make up a single incident

The Ohio Incident-Based Reporting System (OIBRS) is Ohio's version of NIBRS. The Ohio Uniform Incident Report forms are designed based on the OIBRS reporting guidelines. The OIBRS data is electronically reported to the Ohio Department of Public Safety's Office of Criminal Justice Services (OCJS) through OIBRS certified records management systems used by law enforcement agencies throughout the State. OCJS then electronically forwards the crime data in the NIBRS format to the FBI. More information on OIBRS and crime statistics can be found at <http://ocjs.ohio.gov/oibrs/>.

## ADMINISTRATIVE SECTION

The Administrative Section of the Ohio Uniform Incident Report is the first section of the reporting form. The purpose of this section is to assist the investigating law enforcement agency in tracking the agency's response to the incident and to record preliminary information regarding the incident. Information captured in this section includes the agency name, call number, incident number, and times of dispatch, arrival and clearance. Also reported in this section is the final Clearance Code on incidents. Only one Administrative Section should be completed for each incident, regardless of the number of offenses involved. Block titles with an asterisk are fields that apply to the Ohio Incident-Based Reporting System (OIBRS) data collection guidelines.

- Block # 1     **AGENCY NAME** - Enter the reporting agency name in a written character or in abbreviated format.
- Block # 2     **INCIDENT NUMBER\*** - Enter the incident number. This should be a unique number assigned by the law enforcement agency that identifies the incident. This field can be up to twelve characters long, and can be letters, numbers, or dashes.
- Block #3     **CALL NUMBER** - Enter the specific call number. This should be a unique number assigned by the law enforcement agency that identifies the initial call for service from the public. This field can be up to twelve characters long, and can be letters, numbers or dashes.
- Block # 4     **GEOCODE\*** - Enter the geographical identifier assigned by the agency. This is an identifier used to specify the station, division, or precinct where the incident occurred. Sheriff's offices may use townships in this field.
- Block # 5     **TIME OF DISPATCH (TOD)** - Time, in military standards, the reporting officer received the detail from the dispatcher. "2400" is not a valid time; 12 a.m. should be entered as "0000."
- Block # 6     **TIME OF ARRIVAL (TOA)** - Time, in military standards, the reporting officer arrived on the scene. "2400" is not a valid time; 12 a.m. should be entered as "0000."
- Block # 7     **TIME OF CLEARANCE (TOC)** - Time, in military standards, the reporting officer cleared the detail. This is the time the officer actually leaves the scene of the incident. "2400" is not a valid time; 12 a.m. should be entered as "0000."
- Block # 8     **REPORT TYPE** -  One of the following boxes should be checked:

<b>Incident</b>	This box should be checked for calls that do not result in an offense, e.g., missing persons, property disputes, domestic disputes, etc. If a report taken is of non-criminal activity this box should be checked.
<b>Offense</b>	This block should be checked if an appropriate Ohio Revised Code or Local Ordinance section could be entered in block number 2 of the Offense Section.

<b>Supplement</b>	This block should be checked if there are more than 5 offenses for the incident. For example, if an incident involves seven criminal violations only enter up to five on page one. Utilize a second page one as a supplement page.
-------------------	--

Block # 9      **CASE CLEARANCES\*** -  Check the code that most appropriately explains why the incident was cleared. If one does not apply leave space blank.

**Standards for an Exceptional Clearance:**

In order to clear an offense by exceptional means, the following four conditions must be met: (1) the investigation must have clearly and definitely established the identity of at least one offender; (2) sufficient probable cause must have been developed to support arresting, charging, and prosecuting the offender; (3) the exact location of the offender must be known so that an arrest can be made; and (4) there must be a reason outside the control of law enforcement that prevents the arrest.

All case clearances should be applied at the incident level. In a multiple offense incident, the clearance of one offense clears the entire incident. If both an adult and a juvenile are arrested, mark both on the hard copy of the form, but when entering information into the computer system enter it only as adult. If a case is exceptionally cleared A-E, there should **NOT** be an arrestee; otherwise it cannot be exceptionally cleared.

If an incident is cleared by either an exceptional clearance or an arrest, the arrest should be given a higher priority. If a case is cleared by arrest and a second offender is later arrested in conjunction with the cleared incident, information on the second arrestee should be added to that incident, but the clearance information does not need to be updated. **Do not update information on exceptional clearances.** In multiple offense incidents, the earliest date of clearance either by arrest or exceptional clearance for any offense clears the incident. Subsequent updates on clearances for the offense in that incident will not be tallied as clearances since the initial clearance is valid for the entire incident.

**EXCEPTIONAL CLEARANCES-**  **check the appropriate code:**

<b>A</b>	<b>Death of Suspect</b> - Applicable when the suspect has committed suicide, is the victim of a murder, has made a "deathbed confession," is killed by the police or a citizen, or has died due to another cause.
<b>B</b>	<b>Prosecution Declined</b> - By the prosecutor for other than lack of probable cause. For example, the case is cleared by the confession of an offender already in the custody of the investigating agency or currently serving a sentence in jail or prison.
<b>C</b>	<b>In Custody of Other Jurisdiction</b> - Used when the authorities of another state or country refuse to remand the suspect to the custody of the jurisdiction that wishes to prosecute him/her for the offense in question, <b>or in circumstances where an agency arrests an offender who is also suspected of committing offenses in other jurisdictions.</b>
<b>D</b>	<b>Victim Refused to Cooperate</b> - Applicable when the victim of an offense fails to cooperate in the prosecution of the suspect.
<b>E</b>	<b>Juvenile/No Custody</b> - Used when a juvenile suspect is handled without taking him/her into custody, but rather by oral or written notice given to the parents or legal guardian in a case involving a minor offense.

☞ *Note: If A through E is checked, an arrest report must not be included for the incident.*

**ARREST CLEARANCES-  check the appropriate code:**

<b>F</b>	<b>Cleared By Arrest - Adult</b> - An offense is "cleared by arrest" when at least one person is arrested, charged with the commission of an offense, and turned over to the court for prosecution (whether following arrest, court summons, or police notice). <b>In incidents involving multiple arrests, this code is used if at least one of those arrested is 18 years of age or older.</b>
<b>G</b>	<b>Cleared By Arrest - Juvenile</b> - Same as above. Additionally, although no physical arrest is made, a clearance by arrest can be claimed when the offender is under 18 years of age and is cited to appear in juvenile court or before other juvenile authorities. <b>In incidents that involve multiple arrests, this code is used when all those arrested are under 18 years of age.</b>

☞ *Note: If F or G is checked, an arrest report must be included for the incident.*

**Other Clearances-  check the appropriate code:**

<b>H</b>	<b>Warrant Issued</b> - Applies when an arrest warrant is issued for a particular suspect, but has not yet been served, and the final disposition of the case depends on the suspect being arrested. Can be updated to one of the Exceptional Clearance or Arrest Clearance Codes.
<b>I</b>	<b>Investigation Pending</b> - Appropriate when the final disposition of the case depends on the completion of some aspect of an investigation that is currently being pursued. Although Investigation Pending is not an actual clearance, it is used to assist officers in determining the status of the incident quickly.
<b>J</b>	<b>Closed</b> - Applicable when a case is deemed permanently inactive for reasons of insolvability, elapsed time since occurrence, etc.
<b>K</b>	<b>Unfounded</b> - Applicable when through investigation an incident is found to be false or baseless. If you arrive on scene and determine the reported incident was false or baseless, it is not required that a report be completed. This Clearance Code is used if the report has already been taken and it is determined to be false or baseless.
<b>U</b>	<b>Unknown</b> - Applies when information regarding the disposition of the case is not available. If a report is issued and the complainant is instructed to file charges, mark U for unknown because that person may decide not to file charges. This is also used when the incident is turned over to the prosecutor and it is not known whether charges will be filed.

**EXAMPLE 1:**

A 30-year-old suspect commits a burglary and is subsequently arrested. The proper code should be "F" = "Cleared by Arrest - Adult."

**EXAMPLE 2:**

A homicide investigation is cleared when the person wanted for murder is discovered dead on July 14, 1990. The entry for this should be "A" = "Death of Offender."

**EXAMPLE 3:**

An incident is submitted and a warrant is issued for the offender's arrest. The entry for this data element should be "H"- "Warrant Issued." When the offender is arrested the clearance for this incident should be updated to "F"- "Cleared by Arrest."

**EXAMPLE 4:**

A 21-year-old and a 16-year-old attempt to rob a liquor store and are subsequently apprehended. On the paper form "F" Cleared by Arrest-Adult and "G" Cleared by Arrest-Juvenile may be marked. However, when entering the information into the database, only "F" Cleared by Arrest-Adult will be entered.

Block #10 **CLEARANCE DATE\*** - Enter the date the report is cleared by the law enforcement agency. The date should be entered as follows: Month-Day-Year MM/DD/YY.

 **NOTE:** *If box "I" or "U" is checked in block number 9, block number 10 should be blank. Also, if there is no Clearance marked in block number 9, this field should be left blank.*

Block # 11 **CLEARED BY** - Enter the initials, badge number, or unit number of the person who cleared the incident. The reporting agency should determine the type of entry for this field.

 **NOTE:** *If box "I" or "U" is checked in block number 9, block number 10 should be blank.*

Block # 12 **MONTH REPORTED\*** - Enter the month that the incident was reported to the agency by the complainant, victim, or reportee. This is the month the call was received by the dispatcher from the complainant, victim, or reportee.

Block # 13 **DAY REPORTED\*** - Enter the actual date of the month that the incident was reported to the agency by the complainant, victim, or reportee. This is the date the call was received by the dispatcher from the complainant, victim, or reportee.

Block # 14 **YEAR REPORTED\*** - Enter the year that the incident was reported to the agency by the complainant, victim, or reportee. This is the year the call was received by the dispatcher from the complainant, victim, or reportee.

Block # 15 **TIME REPORTED\*** - Enter the actual time, in military standards, that the dispatcher received the call from the complainant, victim, or reportee. "2400" is not a valid time, "0000" should be entered and the report date should appear as if the incident occurred at one minute past midnight.

- Block # 16 **MONTH INCIDENT OCCURRED\*** - Enter the month the incident occurred. If the incident occurred over several days or hours, enter the beginning month in this block.
- Block # 17 **DAY INCIDENT OCCURRED\*** - Enter the date of the month that the incident occurred. If the incident occurred over several days or hours, enter the beginning date in this block.
- Block # 18 **YEAR INCIDENT OCCURRED\*** - Enter the year the incident occurred. If the incident occurred over several days or hours, enter the beginning year in this block.
- Block # 19 **TIME INCIDENT OCCURRED\*** - Enter the time the incident occurred. The time should be recorded according to military standards. "2400" is not a valid time, "0000" should be entered and the incident date should appear as if the incident occurred at one minute past midnight. If the exact time of the incident is unknown, enter the beginning time period in this block.
- Block # 20 **MONTH INCIDENT OCCURRED TO** - If the exact date the incident occurred is unknown, enter the ending month in this block. If the exact month of the incident is known leave this field blank.
- Block # 21 **DAY INCIDENT OCCURRED TO** - If the exact date of the incident is unknown, enter the ending date in this block. If the exact date of the incident is known leave this field blank.
- Block # 22 **YEAR INCIDENT OCCURRED TO** - If the exact date of the incident is unknown, enter the ending year in this block. If the exact date of the incident is known leave this field blank.
- Block # 23 **TIME INCIDENT OCCURRED TO** - If the exact time of the incident is unknown, enter the ending time in this block. The time should be recorded according to military standards. "2400" is not a valid time, "0000" should be entered and the ending time should be recorded as if it was one minute past midnight. If the exact time of the incident is known leave this field blank.

## **OFFENSE SECTION**

The Offense Section of the Ohio Uniform Incident Report is the section designed for law enforcement agencies to record all information associated with any offense. There can be up to ten offenses reported for each incident. However, if there are more than five offenses reported for an incident, an additional supplement form should be used.

This section records information such as the offense type, where it occurred and the suspect's method of operation. Information on non-criminal incidents may also be recorded in this section.

Block titles with an asterisk are fields that apply to the Ohio Incident-Based Reporting System (OIBRS) data collection guidelines.

Block # 1 **OFFENSE DESCRIPTION** - Enter the title(s) of the Ohio Revised Code Section or Local Ordinance that best describes the offense(s) being reported for this incident. Record each code title only once even though there may have been more than one victim per offense. Offense subsections are not required. **The Ohio Revised Code or codified ordinance for "Attempt" should not be entered as an offense title. Enter the description of the offense attempted.** If "Incident" is checked in block number 8 of the "Administrative" section, the reporting officer should describe the incident being reported in "Offense Description" (block number 1) field, e.g., Property Damage, Animal Complaint, etc.

 **Note:** *Theft (ORC 2913.02) may be listed in Block number 1 more than once if the larceny type listed in Block number 6 is different.*

Block # 2 **OFFENSE CODE\*** - Enter the section number (s) of the Ohio Revised Code or Local Ordinance that best describes the offense(s) being reported for this incident. Record each code section number only once even though there may have been more than one victim per offense. If "Incident" is checked in block number 8 of the "Administrative" section, a line shall be drawn through the "Offense Code" (block number 2) field. **The Ohio Revised Code or codified ordinance code for "Attempt" should not be entered as a section number. Enter the section number of the offense attempted and enter "A" in block number 3 of this section.**

 **Note:** *Theft (ORC 2913.02) may be listed in Block number 2 more than once if the larceny type listed in Block number 6 is different.*

### **EXAMPLE:**

During a burglary offense, police respond to a silent alarm. When the police arrive the perpetrator is in the process of removing a screen from a window in order to gain entry. When reporting, officers enter the Ohio Revised Code for Burglary 2911.12 in this field.

 **Note:** *Although the previous example is a burglary attempt, enter the ORC 2911.12 to stipulate a burglary offense and mark "A" Attempted in block number 3 of this section. If the*

*perpetrator fled with stolen property the same offense code would be entered (ORC 2911.12), but "C" for Completed would be marked in block number 3 of this section.*

Block # 3

**OFFENSE ATTEMPTED/COMPLETED\*** – Enter “A” or “C” to identify whether each offense was completed or merely attempted. If “Incident” is checked in block number 8 of the “Administrative” section, a line shall be drawn through the “Offense Attempted/Completed” (block number 3) field. If there is more than one occurrence of the same offense within an incident and only one is completed, then “Completed” is still reported.

**EXAMPLE:**

During a bank robbery, offenders attempted to kidnap two men. One man struggled and was able to escape. The other was abducted. Since one kidnapping was completed, the offense data would indicate "Completed." Indicate specific details in the narrative report.

Block # 4

**FELONY/MISDEMEANOR AND DEGREE** - Enter one of the following codes to reflect whether the offense is a felony or misdemeanor and the degree. If "Incident" is checked in block number 8 of the "Administrative" section, a line shall be drawn through the "Felony/Misdemeanor and Degree" (block number 4) field.

**POSSIBLE ENTRIES:**

<b>M</b>	Misdemeanor
<b>M-M</b>	Minor Misdemeanor
<b>M-4</b>	Misdemeanor-Fourth Degree
<b>M-3</b>	Misdemeanor-Third Degree
<b>M-2</b>	Misdemeanor-Second Degree
<b>M-1</b>	Misdemeanor-First Degree
<b>F</b>	Felony
<b>F-5</b>	Felony-Fifth Degree
<b>F-4</b>	Felony-Fourth Degree
<b>F-3</b>	Felony-Third Degree
<b>F-2</b>	Felony-Second Degree
<b>F-1</b>	Felony-First Degree
<b>AGG F-3</b>	Aggravated Felony-Third Degree
<b>AGG F-2</b>	Aggravated Felony-Second Degree
<b>AGG F-1</b>	Aggravated Felony-First Degree
<b>UNSPECIFIED</b>	Juvenile Offenses

**Note:** *All felony/misdemeanor and degree codes require that dashes should be included when entered.*

**Block # 5 HATE/BIAS RELATED\*** - This block must be completed with a hate bias code. The purpose of this field is to indicate whether the offender was motivated to commit the offense because of his/her bias against a racial, religious, ethnic/ national origin, or sexual orientation group. Due to the difficulty of ascertaining the offender's subjective motivation, bias is to be reported only if investigation reveals sufficient objective facts to lead a reasonable and prudent person to conclude that the offender's actions were motivated, in whole or in part, by bias.

The majority of criminal incidents exhibit motivations other than bias. If the incident is ambiguous as to the motivation of the perpetrator, and/or if the offender is not identified, use code "U" = motivation of perpetrator unknown.

Enter one of the following codes to explain the type of suspected hate/bias:

**RACIAL BIAS**

<b>11</b>	Anti-White
<b>12</b>	Anti-Black
<b>13</b>	Anti-American Indian/ Alaskan Native
<b>14</b>	Anti-Asian/Pacific Islander
<b>15</b>	Anti-Multi Racial Group

**RELIGIOUS BIAS**

<b>21</b>	Anti-Jewish
<b>22</b>	Anti-Catholic
<b>23</b>	Anti-Protestant
<b>24</b>	Anti-Islamic (Muslim)
<b>25</b>	Anti-Other Religion
<b>26</b>	Anti-Other Religious Group
<b>27</b>	Anti-Atheism/Agnosticism

### **Ethnicity/National Origin Bias**

<b>30</b>	Anti-Oriental
<b>31</b>	Anti-Arab
<b>32</b>	Anti-Hispanic
<b>33</b>	Anti-Other Ethnicity/ National Origin

### **SEXUAL ORIENTATION BIAS**

<b>41</b>	Anti-Male Homosexual (Gay)
<b>42</b>	Anti-Female Homosexual (Lesbian)
<b>43</b>	Anti-Homosexual (Gay and Lesbian)
<b>44</b>	Anti-Heterosexual
<b>45</b>	Anti-Bisexual

### **OTHER BIAS CODES**

<b>50</b>	Other Bias Incident
<b>U</b>	Motivation of Perpetrators Unknown
<b>N</b>	No Bias / Not Applicable

### **Objective Evidence that the Crime Was Motivated by Bias**

When investigating an incident there must be a careful evaluation regarding the motive of the crime. The mere fact that the offender is biased against the victim's racial, religious, ethnic/national origin, and/or sexual orientation group does not mean that a hate crime was involved. Rather, the offender's criminal act must have been motivated, in whole or in part, by his/her bias.

Because motivation is subjective, it is difficult to know with certainty whether a crime was the result of the offender's bias. Therefore, before an incident can be reported as a hate crime, sufficient objective facts must be present to lead a reasonable and prudent person to conclude that the offender's actions were motivated, in whole or in part, by bias. While no single fact may be conclusive, facts such the following, particularly when combined, are supportive of a finding of bias:

- (a) The offender and the victim were of different racial, religious, ethnic/national origin, or sexual orientation groups. For example, the victim was black and the offenders were white.
- (b) Bias-related oral comments, written statements, or gestures were made by the offender that indicate his/her bias. For example, the offender shouted a racial epithet at the victim.
- (c) Bias-related drawings, markings, symbols, or graffiti were left at the crime scene. For example, a swastika was painted on the door of a synagogue.

- (d) Certain objects, items, or things which indicated bias were used, (e.g., the offenders wore white sheets with hoods covering their faces) or left behind by the offender(s) (e.g., a burning cross was left in front of the victim's residence).
- (e) The victim is a member of a racial, religious, ethnic/national origin, or sexual orientation group that is overwhelmingly outnumbered by members of another group in the neighborhood where the victim lives and the incident took place. This factor loses significance with the passage of time (i.e., it is most significant when the victim first moved into the neighborhood and becomes less significant as time passes without incident).
- (f) The victim was visiting a neighborhood where previous hate crimes had been committed against other members of his/her racial, religious, ethnic/national origin, or sexual orientation group and where tension remain high against his/her group.
- (g) Several incidents have occurred in the same locality, at or about the same time, and the victims are all of the same racial, religious, ethnic/national origin, or sexual orientation group.
- (h) A substantial portion of the community where the crime occurred perceives that the incident was motivated by bias.
- (i) The victim was engaged in activities promoting his/her racial, religious, ethnic/national origin, or sexual orientation group. For example, the victim is a member of the NAACP or participated in gay rights demonstrations, etc.
- (j) The incident coincided with a holiday relating to, or a date of particular significance to, racial, religious, ethnic/national origin, or sexual orientation group. For example, Martin Luther King Day, Rosh Hashannah, Gay and Lesbian Rights Day.
- (k) The offender was previously involved in a similar hate crime or is a member of a hate group, (e.g. Ku Klux Klan, Skinheads).
- (l) There were indications that a hate group was involved. For example, a hate group claimed responsibility for the crime or was active in the neighborhood.
- (m) A historically established animosity exists between the victim's group and the offender's group.
- (n) The victim, although not a member of the targeted racial religious, ethnic/national origin, or sexual orientation group, is a member of an advocacy group supporting the precepts of the victim group.

**Cautions!!!**

**Need for Case-by-Case Assessment of the Facts**

The aforementioned factors are not all-inclusive of the types of objective facts which evidence biased motivation. Therefore, reporting agencies must examine each case for facts that clearly demonstrate evidence that the offender's bias motivated him/her to commit the crime.

**1. MISLEADING FACTS**

Agencies must be alert to misleading facts. An incident may sound or appear to be racially motivated when in fact it is not.

**EXAMPLE:**

The offender used an epithet to refer to the victim's race, but the offender and victim were of the same race.

**2. FEIGNED FACTS**

Agencies must be alert to evidence left by the offenders that is meant to give the false impression that the incident was motivated by bias.

**EXAMPLE:**

Students of a religious school vandalize their own school, leaving anti-religious statements and symbols on its walls, in the hope that they will be excused from attending class.

**3. OFFENDER'S MISTAKEN PERCEPTION**

Even if the offender was mistaken in his/her belief that the victim was a member of a racial, religious, ethnic/national origin, or sexual orientation group, the offense is still a hate crime as long as the offender was motivated by bias against that group.

**EXAMPLE:**

A middle-aged, non-gay man walking by a bar frequented by gays was attacked by six teenagers who mistakenly believed the victim had left the bar and was gay.

**Note:** *Although the offenders were wrong on both counts, the offense is a hate crime because it was motivated by the offenders' anti-gay bias.*

**CHANGES IN FINDINGS OF BIAS**

If, after an initial incident report was submitted, a contrary finding regarding bias occurs, the incident report must be updated with the new finding.

**EXAMPLE:**

If an initial finding of no bias is later changed to racial bias or a finding of racial bias was later changed to religious bias, the change should be updated in the reporting agency's information system.

**Definitions**

To ensure uniformity in reporting nationwide, the following definitions have been adopted for use in hate crime reporting:

 <b>Note:</b>	<i>Even if the offender was mistaken in his/her perception that the victim was a member of the group he or she was acting against, the offense is still a bias crime because the offender was motivated by bias against the group.</i>
<b>Bisexual:</b>	(adjective) Of or relating to persons who experience sexual attraction toward, and responsiveness to, both males and females; (noun) a bisexual person.
<b>Ethnicity/National Origin Bias:</b>	A preformed negative opinion or attitude toward a group of persons of the same race or national origin who share common or similar traits, languages, customs, and traditions (e.g., Arabs, Hispanics, etc.).
<b>Gay:</b>	(adjective) Of or relating to males who experience a sexual attraction toward, and responsiveness to, other males; (noun) a homosexual male.
<b>Hate Crime:</b>	Same as "Bias Crime."

<b>Religious Bias:</b>	A preformed negative opinion or attitude toward a group of persons who share the same religious beliefs regarding the origin and purpose of the universe and the existence or nonexistence of a supreme being (e.g., Catholics, Jews, Protestants, Atheists, etc.).

**Sexual**

**Orientation Bias:** A preformed negative opinion or attitude toward a group of persons based on their sexual attraction toward, and responsiveness to, members of their own sex or members of the opposite sex (e.g., gays, lesbians, heterosexuals, etc.).

Block # 6 **LARCENY TYPE\*** -If the offense code recorded in block number 2 is 2913.02 (Theft) or any subsection thereof; then select a larceny type from the list in this block. Also complete this section if a Local Ordinance of theft or any subsection thereof is recorded.

**Note:** *Larceny type does not need to be completed for burglary or breaking and entering. Also, Theft (ORC 2913.02) may be listed in Block #1 and Block #2 more than once if the larceny type listed in Block #6 is different.*

**Definition of Larceny:** The unlawful taking, carrying, leading, or riding away of property from the possession, or constructive possession, of another person.

**LARCENY TYPE CODES**

<b>23A</b>	<b>POCKET-PICKING</b> - The theft of articles from another person's possession by stealth where the victim usually does not become immediately aware of the theft. Includes removal of such items as wallets from women's purses and men's pockets. If the victim is manhandled or force beyond simple jostling is used the offense becomes strong-arm robbery.
<b>23B</b>	<b>PURSE SNATCHING</b> - The grabbing or snatching of a purse or handbag, etc., from the physical possession of another person. If more force was used than necessary to wrench the purse from the grasp of the person, then a robbery occurred rather than a purse snatching. Cases in which a purse or some other item of value is left unattended and is stolen should not be classified as a purse snatching.
<b>23C</b>	<b>SHOPLIFTING</b> - The theft, by someone other than an employee of the victim, of goods or merchandise exposed for sale. This offense includes thefts of merchandise displayed as part of the stock in trade outside buildings, such as department stores, hardware stores, supermarkets, fruit stands, gas stations, etc.
<b>23D</b>	<b>THEFT FROM BUILDING</b> - A theft from within a building that is either open to the general public or where the offender has legal access. Does not include shoplifting and thefts from coin-operated devices or machines within open buildings. Includes places such as churches, restaurants, schools, libraries, public buildings, and professional offices during hours when such facilities are open.
<b>23E</b>	<b>THEFT FROM COIN-OPERATED MACHINE OR DEVICE</b> - A theft from a machine or device that is operated or activated by the use of coins. Some examples of such machines are candy, cigarette, food vending machines, telephone coin boxes, parking meters, pinball machines, or washers and dryers located in a laundromat where no breaking or illegal entry of the building is involved.

23F	<b>THEFT FROM MOTOR VEHICLE</b> - The theft of articles from a motor vehicle, whether locked or unlocked. Includes thefts from automobiles, trucks, truck trailers, buses, motorcycles, motor homes or other recreational vehicles. Includes thefts from any area in the automobile e.g., the trunk, glove compartment, or other enclosure. Items stolen in this type of theft are cameras, suitcases, wearing apparel, packages, etc., which are not an integral part of the vehicle.
23G	<b>THEFT OF MOTOR VEHICLE PARTS OR ACCESSORIES</b> - The theft of any part or accessory affixed to the interior or exterior of a motor vehicle in a manner which would make the item an attachment of the vehicle or necessary for its operation. Thefts of motors, transmissions, radios, heaters, hubcaps and wheel covers, manufacturers' emblems, license plates, radio antennas, side-view mirrors, gasoline, tape decks, CB radios, radar detectors, etc., are included in this larceny type. If items being transported in the vehicle are stolen, the offense should be classified as theft from motor vehicle.

If, however, the reporting jurisdiction determines that the real object of the theft was the contents, rather than the vehicle, two offenses can be reported, the vehicle theft and the theft from the vehicle.*

**EXAMPLE 1:**

If an automobile with a coat in the back seat is stolen, the offense would be reported as Motor Vehicle Theft and the coat accounted for as property stolen in the property section of the report in connection with the automobile theft.

**EXAMPLE 2:**

The theft of a tractor-trailer (truck) containing a shipment of televisions can, however be reported as two offenses if in the judgment of the reporting agency the real object of the theft was the televisions, e.g., the truck is found abandoned and empty not far from the scene of the theft.

### Definitions

**FORCED ENTRY:**        An incident where force of any degree, or a mechanical contrivance of any kind (including passkey or skeleton key), was used to unlawfully enter a building or other structure. This act includes entry by use of tools; breaking windows; forcing windows; doors, transoms, or ventilators; cutting screens, walls, or roofs; and where known, the use of master keys, picks, unauthorized keys, celluloid, or other devices which leave no outward mark but are used to force a lock. Burglary by concealment inside a building followed by an exiting of the structure after the theft is included in the category.

**UNFORCED ENTRY:**    An incident where the unlawful entry was achieved without force through an unlocked door or window. The element of trespass to the structure is essential in the classification, which includes thefts from open garages and warehouses, open or unlocked dwellings, and open or unlocked common basement areas in apartment houses (where entry is by someone other than by the tenant who has lawful access). If the structure entered was one of open access, thefts from the premises would not involve an unlawful trespass and would be reported as theft.

**Note:** *If both FORCED and UNFORCED entries are involved in the offense, the entry should be reported as having been accomplished through force.*

Block # 12 **NUMBER OF PREMISES ENTERED\*** - This code should be used when the offense is Burglary/B&E of a hotel/motel or rental storage facility. The total number (up to 99) of individual rooms, units, suites, storage compartments, etc., entered should be reported in this data element. If the offense is Burglary/B&E and "18" = "Hotel/Motel" or "24" = "Rental Storage Facility" is entered in the "Location of Offense" field, there must be an entry in this field.

**Note:** *This section can also be used to record the number of dwellings that have been entered during a Burglary/B&E (see example 2).*

**“Hotel Rule”:** If a number of Dwelling or Rental Storage Units under a single manager are burglarized and the offenses are most likely to be reported to the police by the manager rather than the individual tenants, the Burglary/B&E should be scored as one offense.

**EXAMPLE 1:**

Twenty rooms are broken into at the Red Roof Inn. The entry for this field would be 21. Count the premise entered and each room unit or suite.

**EXAMPLE 2:**

A single family home and detached garage are broken into. Count the number of premises entered as two.

Block # 13 **METHOD OF ENTRY FOR MOTOR VEHICLE THEFT\*** -  Check the box or boxes that most appropriately describe the method of entry used by the perpetrator.

<b>01</b>	Motor Running/Keys in Car
<b>02</b>	Unlocked
<b>03</b>	Duplicate Key Used
<b>04</b>	Window Broken
<b>05</b>	Towed
<b>06</b>	Hot Wire
<b>07</b>	Slim Jim/Coat Hanger
<b>08</b>	Tumblers Removed

<b>09</b>	Column Peeled
<b>10</b>	Ignition Peeled

Block # 14 **METHOD OF ENTRY FOR BURGLARY/B&E\*** - This field should be used to record Method of Entry for Burglary/B&E Offenses. It may also be used to show method of entry on other offenses when a structure was entered during commission of the crime. Check  a box from each column to describe the Method of Entry. Also, if the point of exit is known, check  a box from each column to describe the point of exit. If unknown, write "Unknown" in this block.

**EXAMPLE:**

A serial rapist enters a woman's home through a sliding glass door located on the first floor at the rear of the house. The method of entry would be recorded in this section even though it is not a burglary.

Block # 15 **METHODS OF OPERATION\*** -Agencies may enter a code for this field. Up to five of the unique characteristics of the incident may be entered. **When code 89 "Other" is used, give a complete explanation, otherwise a written description for the methods of operation field is optional.**

**CARGO THEFT\*** - For FBI IBR reporting purposes only, cargo theft is defined as the criminal taking of any cargo including, but not limited to, goods, chattels, money, or baggage that constitutes, in whole or in part, a commercial shipment of freight moving in commerce, from any pipeline system, railroad car, motortruck, or other vehicle, or from any tank or storage facility, station house, platform, or depot, or from any vessel or wharf, or from any aircraft, air terminal, airport, aircraft terminal or air navigation facility, or from any intermodal container, intermodal chassis, trailer, container freight station, warehouse, freight distribution facility, or freight consolidation facility. For purposes of this definition, cargo shall be deemed as moving in commerce at all points between the point of origin and the final destination, regardless of any temporary stop while awaiting transshipment or otherwise.

Check  either Y (Yes, the incident involved a cargo theft) or N (No, the incident did not involve a cargo theft) for the cargo theft identifier only if the incident involves any of the following offenses.

## VICTIM SECTION

The Victim Section of the Ohio Uniform Incident Report is the section designed for law enforcement agencies to record all information associated with the victim of an offense. The Victim Section can be completed for up to 999 victims involved in a particular incident. This section records information such as the number and type of victims, if there were any injuries and it indicates the victim/suspect relationship. Also detailed in this section is personal information of the victim, such as description information and occupation. If there is more than one victim involved in the incident, a Victim/Witness Supplement form should be used.

A separate Victim Section should be completed for each victim of the incident. Also, if the incident involves victim types that are both individuals and businesses, etc., a separate victim section should be completed for each.

Some assault situations can pose difficulties in distinguishing victims. If a number of persons are involved in a dispute or disturbance and law enforcement investigations cannot establish the aggressors from the victims, record all persons involved as both victims and suspects. Similar situations can occur with domestic disputes, etc.

Block titles with an asterisk are fields that apply to the Ohio Incident-Based Reporting System (OIBRS) data collection guidelines.

### EXAMPLE:

Officers respond to a domestic dispute where both the husband and wife are injured. Both subjects would be recorded as a victim and suspect.

 **Note:** *If block number 3, Victim Type is "B" business, "F" financial institution, "G" government, or "R" religious organization, complete block numbers 1 through 6, and block 23.*

*If block number 3, Victim Type is an "I" individual or "P" police officer (in the line of duty) complete block number 1 through block number 25. However, if the crime committed is a property crime it is not necessary to complete blocks 12-15 (victim height, weight, hair and eyes). If information in any of these blocks is unknown or not applicable, draw a line through the box.*

Block # 6      **PROPERTY VALUE\*** - Enter the total dollar value or estimated value in whole dollars for the code listed in block number 5. **If property is damaged, the value should be an estimated value of the damage. "Unknown" is not acceptable.**

There is no requirement to list the value of any drugs/narcotics "seized" in a Drug/Narcotic Violation offense. Thus, if the offense was "Drug/Narcotic Violation," the property description was "31"="Drugs/Narcotics," and the type property loss, "Seized," no value is required. However, when drugs are involved in other types of crime (e.g., they were stolen in a burglary or burned in an arson) their value is to be reported.

### Guidelines For Property Valuation

Questions frequently arise as to how to value property involved in a criminal incident. The following guidelines are suggested:

1. Use fair market value for articles that are subject to depreciation because of wear and tear, age, or other factors that cause the value to decrease with use.
2. Use cost to the merchant (wholesale cost) of goods recovered, seized, stolen, etc., from retail establishments, warehouses, etc. In other words, use the dollar value representing the actual cash loss to the victim without any markup or profit added.
3. Use victim's valuation of items such as jewelry, watches, and other similar goods that decrease in value slightly or not at all with use or age.
4. Use replacement cost or actual cash cost to victim for new or almost new clothes, auto accessories, bicycles, etc.
5. When the victim obviously exaggerates the value of stolen, destroyed, or damaged property for insurance or other purposes, common sense and good judgment will dictate a fair market value to be placed on the stolen items by law enforcement.

In most instances, the victim's valuation can be accepted. The theft of non-negotiable instruments such as traveler's checks, personal checks, money orders, stocks, bonds, food stamps, etc., should be scored but no value recorded. Again, "hair splitting" refinements such as bonds payable to the bearer, etc., are valued at the current market price at the time of the theft, seizure, etc. Values should be rounded to the nearest dollar.

Often the condition of the property is different at recovery than it was when stolen. The market value at the time of recovery should be used even if it is less than the value reported at the time of the theft. If the value has increased by the time the property is recovered, the recovery value should not exceed its value at the time it was stolen.

Regardless of what police agency recovers the stolen property, officers should only report the value of recovered property if it is stolen from their jurisdiction. Therefore, if a police agency other than the originating agency recovers the stolen property, the jurisdiction from which the property is stolen is responsible for reporting the value of the recovery. This procedure applies to all stolen property, including motor vehicles.

## ***SUSPECT/ARRESTEE SUPPLEMENT***

The Suspect Arrestee Supplement is divided into six sections: Name/Descriptives, Associated Persons, Arrest Information, Juvenile, Runaways/Missing and Reporting Officer/Arresting Officer. The form is used to record information on suspects, arrestees, missing persons and runaway juveniles. This supplement is designed to record known associates and all personal information on any of the above subjects. While investigating a crime, if a suspect or an arrestee is identified the form should be completed to show the type of weapon(s) the suspect or arrestee used, if applicable, and warrant and arrest information.

If the subject is a runaway, parent/guardian information is recorded in this supplement in addition to information on when they were last seen.

The Reporting Officer Information section of the supplement is also used as an administrative aid for the law enforcement agency. This section assists the agency by tracking the officer that responded to the incident and by identifying the officer that approved the report. Additionally this section shows which court the subject is ordered to appear in and the court date.

The concept of acting in concert provides: that the offenders actually commit or assist in the commission of the crime or crimes. The offenders must be aware of, and consent to, the commission of the crime (s); or even if nonconsenting, their actions assist in the commission of the offense(s).

If the structure is entered as one of access, thefts from the premises would not involve an unlawful trespass and would be reported as theft.
